

100/AGS5

Update and re-writing of EBU Tech Doc 3344

J. Yoshio and A. Mason

-
- Tech 3344 is a part of EBU R128
 - EBU R128 Loudness Recommendation
 - EBU Tech 3341 Metering specification
 - EBU Tech 3342 Loudness Range descriptor
 - EBU Tech 3343 Production Guidelines
 - EBU Tech 3344 Distribution Guidelines
 - Tech 3344 Distribution Guidelines includes,
 - loudness criteria for each kind of content and its distribution
 - EBU/PLOUD proposed it should be a part of IEC 62760 (reproduction method for loudness controlled content)
 - IEC 62760 is CD stage now, PT will study how to include Tech 3344 in IEC 62760.

-
- Tech 3344 should be re-wrote to be easier to use.
 - EBU will do that, then the re-wrote Tech 3344 will be proposed to be IEC standard as a part of IEC 62760.

 - EBU/PLOUD started rewriting process.
 - Revisions are being discussed in PLOUD.
 - By the end of the year, re-writing will start.
