

3D & UHD

Zhang Hong
China Electronics Standardization Institute

3D technology status

Recently standard on 3D display

- 3 standards published by IEC TC110
 - IEC 62629 3D display devices
 - Part 1-2: Generic – Terminology and letter symbols
 - Part 12-1: Measuring methods for stereoscopic displays using glasses – Optical
 - Part 22-1: Measuring methods for auto-stereoscopic displays – Optical

Recent progress on UHD Standards

- UHD-related work has not started in TC110
- 2 Industry standards in China (Working)
 - Ultra-high-definition television measurement methods
 - Ultra-high-definition television technical specification

Points of UHD Standardization

- Test patterns for TV products in 4K resolution
- 2K to 4K Conversion capability
- Dynamic picture processing performance test

Thank you for your attention
