  - 2014-11 New contribution was added and edited.
  - 2015-10 DTR will be submitted.
- Effects
  - NPs form this activity was made.
- Next
  - Propose NPs from this activity and study.

## Proposal for the new TA

---

- Thank you for Study Session 5 members' contribution.  
Now we have three projects,
  - PT100-9 Technical Report
  - NP for Drive monitor
  - NP for Event video recorderWe expect other new proposals such as functional map, car mode, and more from TR and its use cases.
- Also, we recognized a need for the concrete group of vehicle issues under TC 100 to make standards among other SDOs.
- So, here I propose to establish the new TA:  
TA17(tentative): (tentative title) Multimedia equipment and systems for vehicle
  - If it can be, TAM and TS should be assigned, SS5 and TC 100 need to discuss on this.
