INTERNATIONAL ELECTROTECHNICAL COMMISSION

TECHNICAL COMMITTEE No. 100: AUDIO, VIDEO AND MULTIMEDIA SYSTEMS AND EQUIPMENT

To all TC100 AGS and AGM members

Call for Members, TC100 AGS Study Session 7 (Robotics)

The interim leader of TC100 AGS SS7 (Robotics) invites interested parties to join TC100 AGS SS7 to present and discuss standardization opportunities related to robotics within the scope of TC100.

TC100 AGS decided to establish SS7 (Robotics) on 2014 and called for experts.

Since the establishment, though AGS has encouraged AGS/AGM members to assign expert, the number of expert can't meet the criteria for starting SS7 activity.

This call for member is recommended by AGS at last meeting in Minsk.

TC100 AGS and AGM members are encouraged to nominate anyone who is interested in contributing to this new Study Session activity, including himself/herself.

Call for Members

This call for Study Session 7 (Robotics) membership is open to any member with an IEC account who can contribute to the discussion of Robotics technologies within the scope of TC100.

To join, please contact Mr. Toshihiro Inokuchi by email at inokuchi.toshihiro@jp.panasonic.com to make your request.

Closing Date

The Call for Members closes on 2016-06-30. In addition to the interim leader, at least three experts must join in order to form the Study Session.

Guests

The Study Session leader may invite anyone who can contribute relevant information participate as a Guest, regardless of their IEC affiliation.

Leader of SS7

After closing the call for member, SS7 will decide Leader of SS7 and will start investigation.
