INTERNATIONAL ELECTROTECHNICAL COMMISSION

TECHNICAL COMMITTEE No. 100: AUDIO, VIDEO AND MULTIMEDIA SYSTEMS AND EQUIPMENT

To all TC100 AGS and AGM members

Call for Members, TC100 AGS Study Session 11 (VR Technology)

The tentative leader of TC100 AGS SS11 (VR Technology) invites interested parties to join TC100 AGS SS11 to present and discuss standardization opportunities related to Virtual Reality (VR) Technology within the scope of IEC TC100. Though the opportunity to join will remain open, the Call for Members closes on 2016-11-25.

TC100 AGS and AGM members are encouraged to nominate anyone who is interested in contributing to this new Study Session activity, including himself/herself.

Background

In the past TC100/AGS 40th meeting held in Frankfurt, Ms. Xiaoying Zhao introduced market and technology of VR product. Now a days, the market of VR products are shown the potential for a blooming in near future, but on the other hand, the short of research on standardization, especially on how to evaluate the performance of a VR system, will be an obstacle for the growing of market. The customer also needs some standards for ensuring the safety and health issues.

This situation and importance were understood by AGS, so AGS chair recommended to establish Study Session 11 to study this topic.

Call for Members

“Study Session 11 - VR technology” explains the cases of the VR technology within the scope of TC 100, and proposes study items. The tentative leader Ms. Xiaoying Zhao would like to invite experts who interested in discussing these study items.

This call for Study Session 11 (VR Technology) membership is open to any member with an IEC account who can contribute to the discussion in the Study Session 11.

To join, please contact Ms. Xiaoying Zhao at zhaoxy@cesi.cn and serena.chau@163.com to make your request. Please copy AGS Secretary Toshihiro Inokuchi at inokuchi.toshihiro@jp.panasonic.com.

Closing Date

The Call for Members closes on **2016-11-25**.

Guests

The Study Session leader may invite anyone who can contribute relevant information participate as a Guest, regardless of their IEC affiliation.
