

Study Session 10
Multimedia cyber technology
Report of PT 100-17

Junichi Yoshio
AGS Meeting
17 May 2017, Singapore

PT 100-17 meeting, 5:35 pm – 7 pm, 15 May 2017 in Singapore

- 8 participants (Due to schedule conflict with TA 16, some member could not attend.)
- PL Yoshio explained the updated TR outline, also introduced Hitachi proposal of XR system.
- Discussed and had opinions.
 - The proposed model depend on the TC 100 scope but for TR, the model more broad and common should be defined. Then narrowing the model to TC 100 scope. It is useful to identify the TC 100 model in the whole system.
 - Explained that the original cyber system was raised in PACT report, this PT is realize it in the current developed technologies.
 - 'Multimedia cyber technology' needs its definition.
 - XR is to be included.
 - Security issue to be included, but copy control is not suitable.
 - Confirmed that PT 100-17 aims to make TR not IS.
 - Members were requested to contribute proposing additional items.
 - PL will make the 1st draft TR with consideration these opinion before the plenary meeting in Sep. then it will be discussed at the meeting.
