Title: Liaison Statement to ISO/IEC JTC 1/SC 34/WG 2 on Open Font Format

WG 11 (MPEG) would like to thank SC 34/WG 2 for your continued interest in WG 11 activities related to the development of the ISO/IEC 14496-22 "Open Font Format" (OFF) and for making valuable contributions. WG 11 strives to develop technical solutions that are based on consensus among the participants, and the work conducted by the members of ad-hoc groups helps us achieve these goals. The participation in AHG on Font Format representation is open to all individuals who desire to contribute to the OFF development. The ad hoc group conducts its business primarily online via its email list and teleconferences can be scheduled and conducted upon members' request provided that the information about the scheduled teleconference is announced to all AHG members ahead of time.

WG 11 appreciates the contributions from SC 34/WG 2 and from Dr. Suzuki in particular, who has been an active participant in the AHG work. We will continue the OFF development work and would appreciate his input very much. Currently, the group members are considering multiple proposals that are aimed at improving the content and clarifying the ISO/IEC 14496-22 standard, as well as developing new features and capabilities that would allow glyph elements to be expressed using SVG documents embedded in OFF, thereby allowing for textual content and individual glyphs to be multicolored and animated.

We expect that these exploration activities will yield results that will become the basis for a new work item and, along with other valuable clarifications and improvements, will be incorporated in the third edition of the OFF standard. Your continued participation in the work of the AHG on Font Format Representation and WG 11 OFF development is highly appreciated.

Title: Ad hoc groups established at the 98th MPEG meeting

Status: Approved

N12385	AHG on Font Format Representation
Mandate:	<ol style="list-style-type: none">1. To study the text of the amendment ISO/IEC 14496-22/DAM 2 “Open Font Format, Amendment 2: Additional script and language tags”2. To study the text of the ISO/IEC 14496-28/DIS “Composite font representation”3. To study the impact of the proposed changes to OS/2 ‘Panose’ field on the existing implementations and to recommend a way the proposed changes can be implemented4. To conduct exploration activities on integrating SVG as new glyph description format in OFF in collaboration with the W3C5. To collect and evaluate the proposed changes and improvements to the OFF standard and produce a report with recommended work items for WG11
Chairman:	Vladimir Levantovsky [firstname (dot) lastname (at) monotypeimaging (dot) com]
Duration:	Until next meeting
Meetings	AHG meetings may be held via teleconference if needed. At least two weeks advanced notice will be provided in case if conference call is requested. An AHG meeting may also be held on Sunday before the 94 th MPEG meeting.
